Week 3 of the 2021 Regular Session

Several bills are now making their way to the Governor's desk including one that intends to expand broadband services across the state.

SB74 had unanimous support in both the House and the Senate.

This bill allows cities, counties, and improvement districts to partner with established providers to expand broadband services for those who currently do not have service or those who are underserved.

SB74 is now awaiting the Governor's signature. It has an emergency clause which means it will become effective after the Governor signs it.

Other bills passed by the House in recent days include:

HB1151-This bill suspends the public school rating system for the 2020-2021 school year due to the disruption to education caused by the pandemic.
